50. Trump Absolute Immunity

In a case now before the Supreme Court, Trump's lawyers have argued that the federal charges against him for trying to overturn the 2020 election should be dismissed because he has "absolute immunity" from federal prosecution for crimes committed while in office. Do you agree or disagree that all former presidents are immune from federal prosecution for crimes committed while in office?

56. Favor or Oppose Border Deal - No Mention of Trump's Opposition

Earlier this year, a group of Republican and Democratic senators struck a \$20 billion bipartisan border deal that would raise the bar for asylum, hire more asylum officers and border security agents, make it easier to expel migrants and automatically close the border if illegal crossings reach a certain average daily threshold. Do you favor or oppose this border deal?

57. Favor or Oppose Border Deal - Mentioning Trump's Opposition

Earlier this year, a group of Republican and Democratic senators struck a \$20 billion bipartisan border deal that would raise the bar for asylum, hire more asylum officers and border security agents, make it easier to expel migrants and automatically close the border if illegal crossings reach a certain average daily threshold. But Donald Trump opposed the deal and it died in the Senate. Do you favor or oppose this border deal?

Sample 1,482 U.S. Adults
Conducted March 8 – 11, 2024
Margin of Error $\pm 2.8\%$

Polling Methodology and Margin of Error Calculation

The Yahoo! News survey was conducted by YouGov using a nationally representative sample of 1,482 U.S. adults interviewed online between March 8 – 11, 2024.

The sample was weighted according to gender, age, race, education, 2020 election turnout and Presidential vote, baseline party identification, and current voter registration status. Demographic weighting targets come from the 2019 American Community Survey. Baseline party identification is the respondent's most recent answer given prior to November 1, 2022, and is weighted to the estimated distribution at that time (33% Democratic, 27% Republican). Respondents were selected from YouGov's opt-in panel to be representative of all U.S. adults. The weights range from 0.2 to 4.0, with a mean of 1 and a standard deviation of 0.5.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.8%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
